

Required School Supplies and Book Purchases 2018-2019

Below is a list of the school supplies, seforim, and books that students will need for the first day of school.

We now require that high school students purchase books for their English classes. This allows students to write in their books and learn to purposefully annotate, an important skill for active reading. In the process, each student will build a personal library - a collection of great books that they will read and deeply explore. These books can be bought used or new. The list is posted on our website with links to Amazon.

Required for all students:

General school supplies

Siddur

Set of chumashim at home with Rashi translation for Parsha study

Set of Mikraos Gedolos chumashim, either Meor or Meoros

Calculator (TI-83 or TI-84 for Algebra II and Pre Calculus classes)

USB flash drive

Sneakers for gym.

Plastic food storage container for your daughter's locker. A limited supply available for purchase from the school office.

Required for middle school students:

360 Thinking Academic Planner, to be purchased from the school for \$20.00. This planner, created by Cognitive Connections, is designed to help students improve their executive functioning by organizing their time, tasks, and materials. Please send in a check made out to YGW during the first week of school.
